

MEMBERSHIP 1958-2018
Oxford Institute of Methodist Theological Studies

The following pages represent the best that can be done in reconstructing the membership of the Institute over the years up to and including 2018. Records through 2002 are incomplete, as there has never been much incentive to leave on record a precise list after the event. There are many known instances of people being listed and arriving late, or leaving early, or not arriving at all, and there may be more cases of which no record survives. This compilation has had to be made from various sources, lists of people expected, membership lists circulated at the meeting (some with printed or manuscript corrections) and lists of group membership (which are more significant for member/associate status than for proof of attendance).

There is therefore some arbitrariness in counting people as members or as visitors, depending on the length of stay, and in listing Associates (which became a formal category only in 1982, and was re-defined in 1987). No count has been made of spouses or helpers unless they registered as members in their own right.

Generally members have been listed by country of origin or permanent residence. Many have lived temporarily elsewhere for study purposes or as overseas workers, but with the exception of a few who appear to have made a permanent change, no attempt has been made to record these migrations. In a few cases the country assigned to a name is a guess based on the character of that name.

We attempt to identify members who belong to “other churches in the Wesleyan tradition” – that is the African Methodist Episcopal (AME), African Methodist Episcopal, Zion (AMEZ), Church of the Nazarene, and others – but formal records are lacking and reliance has had to be placed on personal knowledge. Official observers from other denominations have been noted; most were resident and took their duties seriously, but there were one or two exceptions. Some of the “visitors” were in fact members of other denominations who came to give a lecture or informal address.

Corrected to 20 Aug 2018

Brian E Beck / Randy L Maddox
